PROFILE

I am a 22 year old from Belgium with passion for game development and I specialize in Technical art and VFX, mainly working within Unity. I have 2+ years of game development experience and I am always eager to learn and grow.

STUDIES AND PROFESSIONAL EXPERIENCE

○ INDEPENDENT GAME DEVELOPMENT

2026

- Solo developed and published a title (Snack Smasher) on Steam.
- Managed the full development lifecycle, including gameplay programming, systems design, sound design, UI, art and optimization.
- Marketed with short form content, content creator outreach and press.

Software used: Unity , Aseprite, Photoshop, FMOD Studio

○ INTERNSHIP AT HAPPY VOLCANO

2025

I worked remotely as Technical/Game artist on Modulus during my internship at Happy Volcano. Some of my responsibilities:

- Shader and visual effects development.
- Asset optimization and implementation.
- Animation.
- Playtesting.

Software used: Unity, Blender, Photoshop, Substance Painter, Magica Voxel and more...

○ INDEPENDENT GAME PRODUCTION - HOWEST DAE

2022 - 2025

I studied Independent Game Production at Digital Arts and Entertainment where I graduated with honors Cum Laude. Some essential skills I learned:

- Game art asset creation using Blender and Maya
- PBR workflow using Substance Painter
- Photo editing and texture creation using Photoshop
- Platform development using C#
- Game design
- Game development with Unity and Unreal Engine
